Office Action Summary

Art Unit 1733

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-18 are rejected under 35 U.S.C. § 102(b) as being (clearly) anticipated by the Japanese Hoechst reference (newly applied).

The Hoechst reference discloses an adhesive element (used as a label) composed of a base or substrate layer having applied thereto, in order, a layer composed of (a) an (e.g. acrylate) binder resin and a TACKIFIER (in an amount of 30 w/o or higher) therefor; and (b) a PLASTICIZER compatible with the TACKIFIER, which element is applied and adhered to another substrate. (English Translation Abstract). All of the essential limitations of these claims are seen to be satisfied by this reference (which, applicants should note, the Examiner is having translated).

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. J. Gallagher whose telephone number is (703) 308-1971. The examiner
